WASHINGTON.

BOSTON AND PORTSMOUTH S.S. CO.

JOHN BROOKS.

Deer Island Light.

SITUATED on south end of Spit, one-quarter mile southward from Deer Island.

The light is a fixed white, varied by red flash every thirty seconds.

It is located in a conical brown tower, fifty-seven feet above the level of the sea, and is visible twelve and three-quarters miles.

Fog signal — bell struck a single blow every ten seconds.

This light is known to many as "Sound Point Light."

Boston Light.

SITUATED on Little Brewster Island, North side of main outer entrance to Boston Harbor.

A revolving light, flashing white every thirty seconds.

It is located in a white circular tower, one hundred and eleven feet above the level of the sea, and is visible sixteen and one-half miles.

Fog signal — first class steam siren, giving blasts of five seconds' duration, at alternate intervals of ten and forty seconds.

Egg Rock.

SITUATED off Nahant, three-fourths mile from shore.

A fixed red light, located on the top of a white dwelling, eighty-seven feet above the level of the sea, and is visible eight and one-half miles.

C F FARRINGTON, BOSTON

Marblehead Rock.

SITUATED southerly side of entrance to Marblehead Harbor.

Light, a fixed white, located in a white tower, forty-three feet above the level of the sea, visible eleven miles.

Half-Way Rock.

OFF MARBLEHEAD.

THREE and a half miles from Marblehead and eighteen miles from Boston.

So called because it is situated half way between Boston and Cape Ann Lights.

L. PRANG & CO. BOSTON

Baker's Island.

TWO towers on South side of the North-east entrance to Salem Harbor.

Lights, fixed white.

Towers are forty feet apart.

Southeastern tower, round, eighty-seven feet above the level of the sea, light visible fifteen miles.

Northwestern tower, octagonal, sixty-four feet above the level of the sea, light visible thirteen and one-half miles.

Fog signal — bell struck a double and single blow, alternately, with intervals of thirty seconds.

Eastern Point.

SITUATED on the Eastern side of the entrance to Gloucester Harbor.

Light flashing red every five seconds, located in a white tower, sixty feet above the level of the sea, visible thirteen and one-fourth miles.

Fog signal — bell struck two blows, with intervals of twenty seconds.

Cape Ann Lights.

SITUATED on Thatcher's Island, off the coast of Cape Ann.

The lights are fixed white, located in two gray-stone towers eight hundred and ninety-five feet apart, one hundred and sixty-five and one-half feet above the level of the sea, are first class lights, visible nineteen miles.

Fog signal — ten-inch steam whistle, giving blast of eight and four seconds, with alternate intervals of four and forty-four seconds.

Dry Salvages.

TWO and three-quarters miles from Cape Ann Lights.

Marked by a tripod.

They are never covered by the tide.

Isles of Shoals.

SITUATED on White Island, the Southwesterly island of the Isles of Shoals.

Light is a flashing red and white, interval between every flash, fifteen seconds.

Located in white tower, eighty-seven feet above the level of the sea, visible fifteen miles.

Fog signal — hand bell.

Star Island.

ISLES OF SHOALS.

AREA, three-fourths of a mile long and half a mile wide.

On this island formerly stood the town of Gosport, incorporated by an act of the New Hampshire Provincial Assembly in 1715.

The "Oceanic," situated on this island, has accommodations for four hundred guests; and the dining room, erected for the accommodation of excursionists, has an additional seating capacity of five hundred. Mr. O. L. Frisbee is the proprietor and manager of the "Oceanic."

BARRINGTON, BOSTON.

Appledore Island.

ISLES OF SHOALS.

AREA, about one mile long, from east to west, and five-eighths of a mile across.

The "Appledore," situated on this island, has accommodations for six hundred guests, and is owned and managed by Messrs. Leighton Brothers.

C.E. FARRINGTON

Whale's Back.

SITUATED on the East side of the outer entrance to Portsmouth Harbor.

Light is a fixed white, varied by a white flash every ninety seconds.

Located in a gray-granite tower, rising from the ledge sixty-five feet above the level of the sea, visible thirteen miles.

Red fog-signal tower on northerly side of lighthouse.

Fog signal — Daboll trumpet, giving blasts of ten seconds, with intervals of thirty seconds.

Portsmouth Harbor.

(NEW CASTLE.)

SITUATED on Fort Point on the Southwesterly side of the inner entrance to Portsmouth Harbor.

Light, fixed white, located in a brown tower, seventy feet above the level of the sea, and visible fourteen miles.

Fog signal — hand bell.

The Fort situated near this lighthouse is Fort Constitution.

United States Navy Yard,

KITTERY, MAINE.

"Old Ironsides."

FRIGATE CONSTITUTION.

CELEBRATED as the victor in the famous naval battle with the British corvette, "*Guerriere*," August 19th, 1812.

The frigate is now lying at the Navy Yard at Kittery.
